

Lösen Sie folgende Gleichungssysteme rechnerisch und graphisch:

18a

$$\begin{array}{l} \text{(I)} \quad y = 8 \\ \text{(II)} \quad -4x + 9y = 0 \end{array}$$

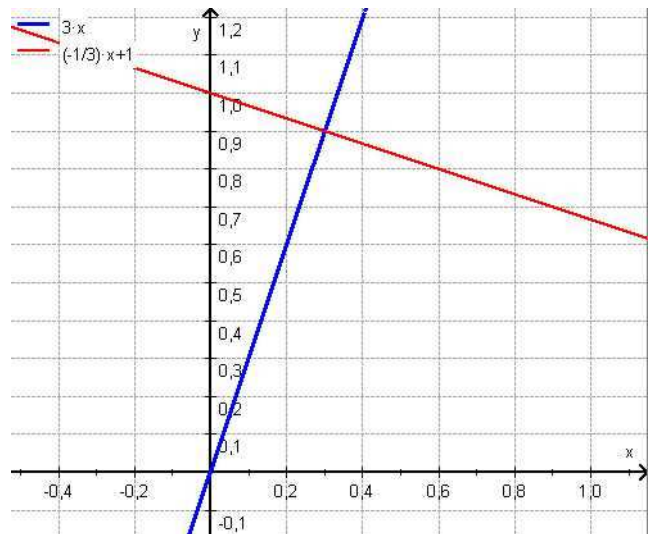

→ S(18/8); (x/y) = (18/8)

17b

$$\begin{array}{l} \text{(I)} \quad x + 3y = 3 \\ \text{(II)} \quad -3x + y = 0 \end{array}$$

→ S(0,3/0,9); (x/y) = (0,3/0,9)

19b

$$\begin{array}{l} \text{(I)} \quad 4x + 3y = 11 \\ \text{(II)} \quad x - 2y = 0 \end{array}$$

→ S(2/1); (x/y) = (2/1)
